**Notification of Waste
Subject to Land Disposal Restrictions**

Manifest number associated with waste shipment

90378844

Generator Name

Douglas Aircraft Co.

Pursuant to 40 CFR 268.7 (a), I hereby notify USPCI that this waste shipment contains a waste(s) that is (are) restricted under the land disposal restrictions contained in either 40 CFR 268 or RCRA Section 3004 (d). This shipment contains one or more of the following wastes which are subject to the listed treatment requirements.

Waste code overlap require all applicable codes, including characteristics, be applied even to listed (F,K,U,P) wastes

Certification of restricted waste meeting treatment standards

I hereby certify to U.S. Pollution Control, Inc. (USPCI) that the hazardous waste identified in this certification meets the applicable treatment standards set forth in 40 CFR 268 Subpart D, and the applicable prohibition levels set forth in Sec. 268.32 or in RCRA Section 3004(d). For wastes with treatment standards expressed as concentrations in the waste extract (Subsection 268.41), the owner or operator of the treatment facility must test the treatment residue according to the waste analysis plan using the Toxicity Characteristic Leaching Procedure (TCLP) described in Appendix II of 40 CFR Part 261 to assure that the treatment residue extract meets the applicable treatment standards found in Table OOWE. For wastes with treatment standards expressed as waste concentrations, the owner or operator of the treatment facility must test the total treated waste matrix for the constituents specified in Table OGW of Sec. 268.43.

NOTICE: THIS SECTION MUST BE COMPLETED.

Base for this certification-Describe the knowledge upon which the certification is made and attach the most recent analytical data:

PUT INITIALS IN BLOCK FOR APPROPRIATE CERTIFICATION

☐

1. GENERATOR'S CERTIFICATION (268.7(a)(1)(ii))

I certify under penalty of law that I personally have examined and am familiar with the waste through analysis and testing or through knowledge of the waste to support this certification that the waste complies with the treatment standards specified in 40 CFR Part 268 Subpart D and all applicable prohibitions set forth in 40 CFR 268.32 or RCRA Section 3004(d). I believe that the information I submitted is true, accurate and complete. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment.

☐

2. PERFORMANCE STANDARDS (40 CFR 268.7(b)(1)(ii))

I certify under penalty of law that I have personally examined and am familiar with the treatment technology and operation of the treatment process used to support this certification and that, based on my inquiry of those individuals immediately responsible for obtaining this information, I believe that the treatment process has been operated and maintained properly so as to comply with the performance levels specified in 40 CFR Part 268 Subpart D and all applicable prohibitions set forth in 40 CFR 268.32 or RCRA Sec. 3004(d) without impermissible dilution of the prohibited waste. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment.

☐

3. TECHNOLOGY STANDARDS (40 CFR 268.7(b)(1)(iii))

I certify under penalty of law that the waste has been treated in accordance with the requirements of 40 CFR 268.42. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment.

☐

4. CONCENTRATION-BASED CERTIFICATION FOR INCINERATOR/FUEL SUBSTITUTION RESIDUES (268.7(b)(5)(iii))

I certify under penalty of law that I have personally examined and am familiar with the technology and operation of the treatment process used to support this certification and that, based on my inquiry of those individuals immediately responsible for obtaining this information, I believe that the nonwastewater organic constituents have been treated by incineration in units operated in accordance with 40 CFR part 264, subpart O or 40 CFR part 265, subpart O, or by combustion in fuel substitution units operating in accordance with applicable technical requirements, and all have been unable to detect the nonwastewater organic constituents despite having used best good faith efforts to analyze for such constituents. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment.

Are there any constituents which do not meet applicable land disposal restriction treatment standards?

☐ yes ☐ no

If yes, please list the constituents which require further treatment:
